Prepared by the

Defense Mapping Agency Topographic Center

Washington, D. C. 20315, March 1978

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100160011-9

INTRODUCTION

This gazetteer contains about 33,500 entries for places and features in Pakistan and in that portion of Jammu and Kashmir on the Pakistan-controlled side of the 1972 cease-fire line. Research for this publication was completed in January 1977.

The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The basic name coverage corresponds generally to that of maps at the scale of 1:250,000. Entries include the names of administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the following sources:

1. Province Maps, Survey of Pakistan, scale 1:1,000,000, 1972-1973.
2. Kashmir, Directorate of Military Survey, scale 1:1,000,000, 1963.
3. *Map of the Boundary Between China's Sinkiang and the Contiguous Areas of the Defence of Which is Under the Actual Control of Pākistān*, Survey of Pakistan, scale 1:500,000, 1966.
4. *India and Pakistan 1:250,000*, Series U502, Army Map Service, 1955-63.
5. British Admiralty charts, Hydrographic Department, Admiralty, London; various dates and scales.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.-Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus *Rās Basol*, the name of a headland, is listed as *Basol, Rās*. Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Local names of international features are identified by major-political-entity labels. Where only one country is identified parenthetically, no name is available for the feature in the other country or countries.

The macron (˘) was retained in native names and native parts of names if supported by the evidence, except over word final *a, i, u, gaon, and pur*. It is to be used whether the names are written in capital or lowercase letters. The first letter of all separate or hyphenated words except non-initial articles, prepositions, and conjunctions should be capitalized.

Designation.-The second column contains designations or abbreviations of designations of the entities to which the names apply, as listed below. Since practically all geographic terms have varied meanings, the senses in which many of the designations are applied in *this gazetteer* are stated in the list to reduce ambiguity. It should be noted that the differentiations of terms that can be made in any gazetteer will vary with the quality of the maps of the area and with the nature

of the entities that are named. In Pakistan some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD first-order administrative division, second-order administrative division, third-order administrative division; Pakistan-controlled portion of Jammu and Kashmir and associated areas

ANCH anchorage

BAY bay

BGHT bight (open body of water forming a slight recession in a coastline)

BSN basin

CAPE cape (seaward end of a projection of land of such position and size as to cause coastwise shipping to change course)

CAVE caves

CHNM marine channel (channel between coastal islands, reefs, or shoals or between an offshore feature and the mainland)

CNLI irrigation canal

COLF coalfield

CONE mud cone (cone of mud formed by action of escaping gases)

CRKT tidal creek (watercourse tidal in its entire length; usually short, without extensive tributary drainage areas and located in coastal marsh or other wetland)

CST coast

DAM dam (barrier constructed across a stream to impound water)

DLTA delta (land formed by the deposition of alluvium at the mouth of a stream, commonly in the form of a triangle or Greek letter *delta*)

DSRT desert

DUNE dune(s)

FRST forest, forest reserve, protected forest

FT fort

GLCR glacier

GULF gulf

HBR harbor (body of water providing shelter for ships, usually associated with ports)

HDLD headland (conspicuously high piece of land jutting out into or fronting the sea)

HLL hill (landform with moderate relief, moderate to low elevation, and small summit area)

HLLS hills

HLT caravan halting place

INTF interfluve (area between more or less parallel branches of rivers; here generally flat)

ISL island

ISTH isthmus (narrow strip of land joining two wider land areas)

LBED lakebed (may at times contain some water)

LCTY locality (minor area or place of unspecified or mixed character and indefinite boundaries)

LGN lagoon (water body along a coast, wholly or largely cut off from the sea by a barrier beach or other depositional feature)

LK lake

MRSH marsh (wetland characterized by grass or low bush vegetation, few if any trees); salt marsh

MT mountain (landform with conspicuous relief, moderate to high elevation, and small summit area)

MTS mountains, mountain range, mountain group, mountain system

OILF oilfield (area containing a subterranean store of petroleum of economic value)

PASS pass (way over, through, or between mountains or other high land)

PCLI independent political entity (republic)

PEN peninsula (area of land projecting into and largely, but not entirely, surrounded by water)

PK peak (separately-named summit on a more extensive elevation)

PKS	peaks	SITE	archeological site (place of archeological activity or interest)
PLAT	plateau (extensive elevated area of flat to rolling surface)	SPNG	spring
PLN	plain(s) (landform of low relief, slope, and elevation)	SPUR	spur (sloping ridge extending laterally from a mountain or other elevation)
PPL	populated place (city, town, village, settlement)	STM	stream (river or other running fresh water body, perennial in all or a part of its course)
PPLQ	deserted village	STMX	section of stream (separately-named part of a stream, not delimited by significant confluences)
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)	TNLR	railroad tunnel
PT	point (relatively minor projection of land, or its extremity, into a water body)	TRB	tribal area
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)	UPLD	upland (broad elevated area with low or moderate surface relief)
RF	reef (offshore consolidated rock hazard to navigation with a least depth of 20 meters [or 10 fathoms] or less)	VAL	valley
RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)	WLL	well, horizontal well (tunnel for collecting and conducting water)
RH	resthouse	WTCQ	abandoned watercourse (former stream channel now carrying little or no water)
RKSW	rocks in water (rocks of such character and importance as to be identified by name, situated either above or below the surface of a body of water)	WTRG	water gap (place where a stream cuts through a ridge)
RKW	rock in water		
RSTN	railroad station (building used for the transaction of railroad business, located beside a railroad track at a point where trains regularly stop to take on and discharge passengers or freight)		
RSV	reservoir, tank (small impoundment of water; may be dry at times)		
RUIN	ruins (structure in a state of ruin but not of great antiquity or archeological interest)		
SEA	sea		
SHOL	shoal (offshore hazard to navigation composed of unconsolidated material and having a least depth of 20 meters [or 10 fathoms] or less)		

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were read generally to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative division of Pakistan in which the place or feature is located, as listed below:

45500	Pakistan (general)
45501	Islāmābād Capital Territory

- 45502 Baluchistān
- 45503 North-West Frontier Province
- 45504 Punjab
- 45505 Sind

The following numbers are used for the Pakistan-controlled portion of Jammu and Kashmir:

- 45506 Azad Kashmir
- 45507 Northern Areas

The general number (45500) is used for international features and for features located in more than one administrative unit.

Glossary of generic terms

The following terms occur as the generic parts of standard names in the gazetteer. The English term or terms which correspond to each local term were applied after objective study of cartographic and other source materials, and do not necessarily reflect dictionary or other normalized usages.

Symbols in parentheses represent the principal languages in which the words occur or from which they were derived: A, Arabic; Br, Brahui; P, Persian; Pa, Pashto; S, Sindhi; U, Urdu; Kh, Khāsi; Ch, Chinese; Ba, Baluchi; La, Lahnda.

- āb (P) stream
- algad (Pa) stream
- bandar (P) bight
- chāh (P) well, spring
- chakul (Br) spring
- char (U) island
- chīna (Pa) well
- dara, darra, daryā (P) stream
- dasht (P) desert, plain
- dhār (U) mountains, mountain range, ridge, spur

- dhora (S) stream
- doāb (P) interfluve
- ghar (Pa) mountain(s), mountain range, ridge, hill(s)
- ghund, ghundai, ghundi (Pa) mountain(s), peak, ridge
- hāmūn (P) lakebed
- hisār (A) fort
- ho (Ch) stream
- jabal (A) mountain(s), hill(s)
- jhal (Br) stream
- jhur (Br) stream
- kalāt (Ba) fort
- kandao (Pa) pass
- kandaw (P) pass
- kānrai (Pa) mountain
- kārez (P) horizontal well (tunnel for collecting and conducting water)
- kas (La) stream
- kaur (Br) stream
- khalij (P) bay
- khand (Ba) pass
- khar (Pa) stream
- khel (Pa) tribe
- khor, khōr (A) stream, tidal creek, lagoon
- khwār, khwāra (Pa) stream
- koh, kohi (P) mountain(s), peak, ridge, hill(s)
- kot (U) fort
- kotal (P) pass
- kowtal (P) pass
- kūh (P) mountain(s), peak, ridge, hill
- kumbh (Br) spring
- lak (Br) pass
- lora (Ba) stream
- mānda (Pa) stream

nadi (U)	stream
nāla (U)	stream, abandoned water-course
narai (Pa)	pass
naray (P)	pass
nāwar (Pa)	stream, lakebed, tank
pahār (U)	mountains, ridge, hill(s)
rakh (U)	forest
rann (U)	salt marsh
rās (A)	headland, point, cape
reg (U)	dune(s)
rīg (P)	dunes
rowd (Pa)	stream
rūd (P)	stream
sar (Pa)	mountain, ridge, peak, hill
sarūna (Pa)	mountains
savāhel (P)	coast
selseleh (P)	mountain range
shākh (P)	stream
tangai, tangi (Pa)	stream, pass
tar (S)	well
thal (U)	dunes
tibba (U)	hill
toba (La)	well
toi (Pa)	stream

tsah, tsahān (Pa)	well
tsūka, tsūkai (ʿa)	mountain, peak
wāh (Kh)	stream
warsak (Pa)	mountain
zangal (Pa)	forest, mountain

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes including, if possible, the source of the correct information to:

Executive Secretary
 U.S. Board on Geographic Names
